November 19, 2009

Dear CEO Member:

The CEO Executive Committee is pleased to announce that Mr. Barry Steinberg, M.A.Sc., P. Eng. will assume the position of CEO President starting January 4, 2010.

Barry received both his undergraduate degree in mechanical engineering and his Master of Applied Science in mechanical engineering from the University of Toronto. He began his career with Energy Resource Technologies Inc. where he provided technical expertise in energy management and remote power system design. He then worked at Lumacell Inc. for over 10 years, first as its Director of Sales and Marketing and then as its Executive Vice President and CEO. Following his work in private industry, Barry started with Royal Le Page Commercial Inc. in the sale of businesses and industrial commercial properties, in 2002. In 2005, he joined the Ontario Real Estate Association (OREA) as its Director of Marketing, where he was instrumental in developing OREA's in-house research capabilities, strengthening OREA's brand recognition among members, and increasing growth in OREA's online continuing education program.

We believe that Barry's education and background make him the ideal candidate to lead CEO. We look forward to working with him and continuing CEO's role as the voice for consulting engineering firms across Ontario. CEO will continue to advocate on behalf of its members for a strong business climate that is mutually beneficial to members and clients.

Thank you for your continued support during this transition period. Should you have any questions, please do not hesitate to contact Saskia Martini-Wong. Please join us in welcoming Mr. Steinberg as CEO's President.

Sincerely,

Consulting Engineers of Ontario - Executive Committee

David Amm, P.Eng.
Vic Anderson, P.Eng.
Shawn Gibbons, P.Eng.
Jim McEwen, P.Eng.
Anita Smith, P.Eng.
