

October 6-9, 2009 | Vancouver, BC

What is your mission?

apcom2009
Application of Computers and Operations
Research in the Mineral Industry

MINE

IS KEEPING UP WITH THE LATEST DEVELOPMENTS

Since 1961 APCOM has provided industry visionaries an exceptional glimpse into the future. From October 6 to 9, 2009, CIM will stage APCOM in Vancouver, British Columbia.

Our program will focus on the following leading-edge tracks:

- **Automation in Mining and Processing**
- **Mine Life Cycle Challenges**
- **Resource Identification Estimation and Planning**
- **Latest Innovations and Technology**

In today's world, your future depends on keeping up with the latest innovations and technologies. APCOM will put you ahead of the game.

If you are passionate about the role that technology can play in your operation APCOM is for you. See tomorrow's technology today and learn how it can be applied to improve your bottom line.

Join us. Lead.
