

FOR IMMEDIATE RELEASE

**ROBERT SHEH APPOINTED CHAIRMAN OF THE BOARD
FOR TROW GLOBAL**

Brampton, Ontario – February 22, 2010. Mr. Vlad Stritesky, President and CEO of Trow Global, a Canadian firm of engineers and consultants headquartered in Brampton, Ontario, is pleased to announce on behalf of the Trow Global Board of Directors that Robert B. Sheh has been appointed to the role of Chairman of the Board.

“We are pleased to have Bob lead our Board of Directors and to help guide our company forward for sustained growth and success. His vast experience, effective leadership and knowledge of the global marketplace will be extremely valuable as we continue to execute our global growth strategy,” said Mr. Stritesky. “We are grateful for the contributions made by Phil Trahanas during his tenure as our Chairman.” Mr. Trahanas, a managing director with global growth investor, General Atlantic, remains actively involved and will continue to serve as a director on Trow Global’s board.

Robert B. Sheh has over 30 years of experience in the consulting, engineering, construction, operations and maintenance industries. He is also an accomplished leader in global energy and infrastructure development and has extensive international experience. He has served in top executive roles at a number of large corporations, including President of Parsons, President and CEO of International Technology Corporation, Chairman and CEO of Air and Water Technologies Corporation and President of CH2M Hill International. Mr. Sheh is the founder and currently Managing Partner of Alta Group LLC, a global advisory firm that specializes in improving corporate financial and operational performance, transitions, and strategic planning.

Mr. Sheh joined Trow Global’s Board of Directors in July of 2009.

About Trow Global

Trow Global is one of Canada’s largest engineering and consulting firms. With offices across Canada, the U.S. and internationally, and with projects around the globe, Trow Global offers clients in both the private and public sectors a full range of services provided by a dedicated team of nearly 3,000 staff, including specialist engineers and technical experts from over 100 Canadian, U.S. and international locations.
