## FOR IMMEDIATE RELEASE

### Lawrence Lukey to lead national Association of Consulting Engineering Companies ACEC announces new Chair of its Board of Directors at National Conference

**(OTTAWA) October 29, 2019** – The Association of Consulting Engineering Companies - Canada (ACEC) is pleased to announce Lawrence Lukey, P.Eng., of BCL Engineering Ltd. has been named to the position of Chair of the ACEC Board of Directors for the 2019-2020 term. The announcement was made at the ACEC national leadership conference that took place in Ottawa from October 27-29, 2019.

Mr. Lukey first joined the ACEC-Canada Board in 2015 and serves on various ACEC committees. During his term as ACEC Chair, he plans to build upon the excellent work of his predecessor Michael Snow, P.Eng., ing., M.A.Sc., and will continue to promote the essential role of consulting engineers in Canadian society. He will also work to strengthen relationships with government officials, increase engagement with ACEC members, and promote best practices for procurement such as Qualifications-Based Selection (QBS).

With over 25 years of consulting experience, Mr. Lukey understands not only the important role that engineers have in informing public policy, but also the importance of managing relationships with members and clients effectively. An advocate for small business members, he also believes in the value of diversification within the consulting engineering profession.

Since 2003 Mr. Lukey has served as President of BCL Engineering Ltd. in addition to his role as Principal and Senior Project Engineer since 2008. He is also an active member and volunteer with various other professional associations including the Association of Consulting Engineering Companies-Saskatchewan (ACEC-SK) where he served as a Director and Past Chair, Western Canada Water and Wastewater Association (WCWWA) where he held the role of Chair for two Western Canada Conferences; and the Association of Professional Engineers and Geoscientists of Saskatchewan (APEGS) where he acted as Councillor.

ACEC President and CEO John Gamble, P.Eng., noted that “Lawrence’s long-time dedication to our association and the consulting engineering industry has been a great asset to our Board. His passion for our sector and commitment to furthering ACEC’s strategic objectives will ensure the interests of our members remain top-of-mind for the association.”

#### **About ACEC**

ACEC represents companies in Canada that provide professional engineering services to both public and private sector clients. These services include the planning, design and execution of all types of engineering projects, as well as providing independent advice and expertise in a wide range of engineering and

engineering-related fields. For more information about ACEC and the 2019 Canadian Consulting Engineering Awards, please visit [www.acec.ca](http://www.acec.ca).
